

Integrated Direct

Improve Patient Care, Save Time and Lower Costs

Securely exchange health care data with providers anywhere

Exchange Clinical Information With Anyone

With Integrated Direct secure messaging you can sign into your EHR and exchange data both within and **outside** your EHR system such as: physician practices, hospitals, health centers, other health care entities, and patients.

In or Out of Network Messaging

With Integrated Direct you can send secure messages directly from your EHR even to those without a Direct address. Securely exchange information with providers and patients anywhere, anytime. For more information about ILHIE Direct Out of Network visit: <http://tinyurl.com/OONDirect>.

Expand Your EHR's Functionality

Use Integrated Direct to extend your communications network. Just sign into your EHR and send secure messages with attachments such as continuity of care, transfer of care, discharges, referrals and lab images.

Stage 2 Meaningful Use

Direct is a nationally certified tool to help achieve Stage 2 meaningful use. For more information about how the ILHIE can help providers to achieve many of the Stage 2 meaningful use objectives, visit: <http://tinyurl.com/ILHIEMU2-Flyer>.

Integrated Direct

Exchange Clinical Data Today Through Your EHR

Improved Patient Information When you Need it Most

Send or receive patient medical records in real time and have them well before your patient arrives. This provides more quality time with patients and reduces the need for patients and providers to continuously fill out duplicate forms.

**Advanced access to a
patient's health records
enhances the doctor/patient
relationship**

Secure, HIPAA Compliant Communications

When registering for ILHIE's Integrated Direct you're vetted to become part of the ILHIE Trust Community. This assures greater security and confidence.

Register Now!
